

Chinese medicine, as a precious cultural heritage of the Chinese race, is based on thousands of years of experience in health care, health maintenance and prevention and treatment of illness. In order to foster and meet the needs of the development of Chinese medicine in Hong Kong, the Hong Kong Baptist University (HKBU) has established its first Chinese medicine clinic in November 1997 to provide quality Chinese medicine healthcare services to the public. The first Bachelor of Chinese Medicine & Bachelor of Science (Hons) in Biomedical Science double degree programme funded by the University Grants Committee (UGC) of the Government was launched in 1998/99, while the first full-time Bachelor of Pharmacy in Chinese Medicine programme was subsequently launched in 2001/02.

To provide quality Chinese medical and healthcare services to the community and establish bases for clinical teaching and research are the University's aim and mission in setting up the Chinese medicine clinics.
