The 5th Annual Meeting of GP-TCM Research Association-cum-Summit on Compendium of Materia Medica and Innovative Drug Discovery in Chinese Medicine

SECOND ANNOUNCEMENT

9-10 August 2016

The Wing Lung Bank Building for Business Studies
Hong Kong Baptist University (Shaw Campus), 34 Renfrew Road, Kowloon Tong, Hong Kong

Chinese medicine is one of the treasures of Chinese culture. In recent decades, its use has spread far and wide and there is increasing recognition of its value worldwide. The Meeting-cum-Summit provides an interactive platform for the exchange of the latest research findings of meeting participants, thereby fostering academic excellence in Chinese medicine.

Objectives
- promote discussion and implementation of good practice in TCM research and development, high-quality evidence-based research on TCM as well as the integration of Chinese medicine and conventional medicine;
- revisit the significant contributions made by Li Shizhen, the author of the Compendium of Materia Medica, to the development of Chinese medicine and discuss new insights into his work;
- explore new strategies for and approaches to new drug discovery and the standardisation of Chinese materia medica with a view to contributing to the advancement, modernisation and internationalisation of Chinese medicine as well as health and well-being.

Themes
- Quality control
- Pharmacology and toxicology
- Regulatory matters and standardisation
- Clinical studies
- Acupuncture
- Compendium of Materia Medica
- New drug discovery strategies and approaches
